

eular

Dear Colleague,

We would like to draw your attention to two planned EULAR events.

Their success is dependent on your support and dissemination and we would cordially like to ask you to spread the word about these offers among your colleagues, friends and fellows.

16th EULAR Postgraduate Course 18–21 October 2015, Prague, Czech Republic

The longstanding and very popular **Postgraduate course** is taking place again in Prague on 18-21 October 2015

http://www.eular.org/edu_course_postgraduate.cfm

We accept up to 100 participants. The regular cost of 650 EUR includes 3 nights accommodation, all meals, one dinner in town, meet the professor sessions and all workshops and sessions.

Bursaries

We will grant 20 bursaries in the amount of 650 EUR each.

It would be very much appreciated to see participants coming from your own country!

2nd EULAR Registers and Observational Drug Studies Meeting (RODS) 7-8 December 2015, Hotel Diplomat, Czech Republic

Join us at the **RODS** meeting and take this great opportunity for networking and development of international collaborative studies. The purpose of the 2nd EULAR RODS meeting is to:

- Examine the breadth of rheumatology registers and drug studies in Europe
- Examine means, methods, and examples of collaborative studies across registers
- Consider a roadmap towards harmonised data collection across registers
- Consider strategies for using routine clinical data to support registers and research, including patient reported data and electronic patient records
- Examine basic and advanced statistical methods for analysing register data
- Examine and learn lessons specifically from registers in PsA, spondyloarthropathies, myositis & connective tissue diseases, and early RA

- Create an opportunity to interact with your colleagues interested in rheumatology registers and drug studies

Bursaries

For this meeting EULAR grants 10 bursaries at 400 EUR each to cover part of the registration.

Participants coming from your country would be very much appreciated!

To discover more about the 2nd EULAR Registers and Observational Drug Studies meeting, please visit http://www.eular.org/epidemiology_registers_observational_drug_studies_meeting.cfm

Please note that the registration period will be extended for both courses as we can accept further participants.

Kind regards

Gabriela Kluge
